INTRODUCTION

This report presents final figures of the 1971 Census with respect to income of families and of non-family persons, as reported in one out of every three households by persons aged 15 years and over.

Tables 81, 82, 83, 85, 87 and 89 deal with family income for 1970; of these, Table 82 shows families with male head, while Table 83 deals with families with female head.

Tables 91 to 96 show families by 1970 income group of head; of these, Tables 91 and 95 show families with male head and Tables 92 and 96 deal with families with female head.

Tables 84, 86, 88 and 90 show 1970 income group of non-family persons.

The areas for which these figures are provided are:

- (i) Canada and provinces, urban, rural non-farm and rural farm (Tables 81, 82, 83, 91);
- (ii) Canada and provinces, urban and rural (Tables 84, 92);
- (iii) census divisions (Tables 85, 86, 93);
- (iv) incorporated cities and towns and other municipal subdivisions of 10,000 population and over (Tables 87, 88, 94); and
- (v) census metropolitan areas, urbanized core and fringe (Tables 89, 90, 95, 96).

The information in this report was collected on a 33 1/3% sample basis. As a result, the number of families for a given geographic area may differ from that shown in reports containing data collected on a 100% basis. The latter figures, of course, represent the official count of families (see Catalogue No. 93-714).

The 1971 Census figures in this report have been subjected to a confidentiality procedure to prevent the possibility of associating small figures with any identifiable individual. The particular technique used is known as "random rounding". Under this method, all last or "unit" digits in a table (including all totals) are randomly rounded (either up or down) to "0" or "5". This technique provides the strongest possible protection against direct, residual, or negative disclosures without adding any significant error to the census data. However, since totals are independently rounded they do not necessarily equal the sum of individual rounded figures in distributions. Also, minor differences can be expected for corresponding totals and cell values in various census reports.

Note: Coverage in 1961 was for non-farm private dwellings only (excluding Northwest Territories). Since farm income was not collected in 1961, these data are not directly comparable.

Ce bulletin présente les chiffres définitifs du recensement de 1971 en ce qui concerne le revenu des familles et des personnes hors famille. Ils sont fondés sur les déclarations des personnes de 15 ans et plus dans un ménage sur trois.

Les tableaux 81, 82, 83, 85, 87 et 89 portent sur le revenu des familles en 1970; le tableau 82 vise les familles ayant un chef de sexe masculin et le tableau 83, les familles ayant un chef de sexe féminin.

Les tableaux 91 à 96 donnent les familles selon la tranche de revenu du chef en 1970; les tableaux 91 et 95 ont trait aux familles ayant un chef de sexe masculin et les tableaux 92 et 96, aux familles ayant un chef de sexe féminin.

Les tableaux 84, 86, 88 et 90 montrent la tranche de revenu en 1970 des personnes hors famille.

Les chiffres sont publiés pour les secteurs suivants:

- i) Canada et provinces, régions urbaines et régions rurales non agricoles et rurales agricoles (tableaux 81, 82, 83, 91);
- ii) Canada et provinces, régions urbaines et régions rurales (tableaux 84, 92);
- iii) divisions de recensement (tableaux 85, 86, 93);
- iv) cités et villes constituées, et autres subdivisions municipales de 10,000 habitants et plus (tableaux 87, 88, 94); et
- v) régions métropolitaines de recensement, noyau urbanisé et banlieue (tableaux 89, 90, 95, 96).

Les renseignements de la présente publication ont été recueillis sur un échantillon de 33 1/3 %. Il s'ensuit que le nombre de familles pour une région géographique donnée n'est pas forcément le même que celui des publications dont les données sont intégrales. Bien entendu, c'est ce dernier chiffre qui représente le nombre officiel de familles (voir la publication n° 93-714 au catalogue).

Par souci de confidentialité, les chiffres du recensement de 1971 publiés ici ont été soumis à une formule qui interdit la possibilité d'associer des chiffres de faible importance à une personne reconnaissable. Cette technique particulière s'appelle l'"arrondissement aléatoire". Grâce à cette méthode, tous les derniers chiffres, c'est-à-dire les chiffres des unités (y compris tous les totaux) des tableaux sont arrondis de façon aléatoire (vers le haut ou vers le bas) à "0" ou à "5". Cette technique assure la protection maximale contre la divulgation directe, négative ou par raccouplements, sans ajouter d'erreur significative aux données. Toutefois, puisque les totaux sont arrondis séparément, ils ne sont pas nécessairement égaux à la somme des chiffres individuels arrondis dans les distributions. De plus, il faut s'attendre que les totaux et les autres chiffres correspondants dans divers bulletins du recensement présentent quelques légères différences.

Nota: En 1961, seuls les logements privés non agricoles (à l'exclusion de ceux des Territoires du Nord-Ouest) ont été pris en compte. Comme on n'a pas recueilli de données sur le revenu agricole en 1961, ces chiffres ne sont pas directement comparables.

DEFINITIONS

Family: A census family consists of a husband and wife (with or without children who have never been married, regardless of age) or a parent with one or more children never married, living in the same dwelling. A family may consist, also, of a man or woman living with a guardianship child or ward under 21 years for whom no pay was received.

Husband-wife family: Refers to all families in which both husband and wife were living together at the census date.

One-parent family: Consists of a parent and one or more children who have never married; the parent is designated head regardless of age or dependency.

Family head: Refers to the husband in a husband-wife family or the parent in a one-parent family.

Non-family persons: Refers to those living alone; those living with unrelated individuals and those living with relatives but not in a husband-wife or parent-unmarried child relationship.

Total income: Refers to the total income received during 1970 from wages and salaries, business or professional practice, farm operations, family and youth allowances, government old age pensions, other government payments, retirement pensions from previous employment, bond and deposit interest and dividends, other investment sources and other sources. In the case of "family" income it refers to the sum of the incomes received by all members of the family 15 years and over.

Average income for family head was calculated on the basis of those reporting income, while average income for non-family persons and families was calculated on the basis of total non-family persons and total families.

Definitions of these and other terms, including geographic terms, used technically in this report are discussed in the Introductory Report, Volume II, Part 2 (Catalogue No. 93-713).

MEASURES OF RELIABILITY

The estimates of the mean square error for the characteristics covered in this report were not available at the time of publication. They will be available in the introductory report to this volume (Catalogue No. 93-713). Those users requiring this information prior to the release of the introductory report should contact the Census User Inquiry Service.

DÉFINITIONS

Famille: Une famille de recensement se compose de l'époux et de l'épouse avec ou sans enfants célibataires (peu importe leur âge) ou de l'un ou l'autre des parents avec un ou plusieurs enfants célibataires vivant dans le même logement. Une famille peut être formée également d'un homme ou d'une femme vivant avec un enfant en tutelle ou un pupille de moins de 21 ans pour lequel il ou elle ne reçoit pas de rétribution.

Famille époux-épouse: Famille où l'époux et l'épouse vivent ensemble à la date du recensement.

Famille monoparentale: Famille formée du père ou de la mère et d'un ou plusieurs enfants célibataires; le père ou la mère est considéré comme chef, quel que soit l'âge ou le lien de dépendance.

Chef de famille: Le chef de famille est l'époux dans une famille époux-épouse ou le père ou la mère dans une famille monoparentale.

Personnes hors famille: Personnes seules, personnes vivant avec des personnes non apparentées et personnes vivant avec des parents auxquels elles se rattachent par d'autres liens que des liens conjugaux ou des liens de filiation si elles ne sont pas mariées.

Revenu total: Revenu total, reçu en 1970, provenant de la rémunération, de l'exploitation d'une entreprise ou d'une ferme, de l'exercice d'une profession pour compte propre, d'allocations familiales et d'allocations aux jeunes, d'une pension de vieillesse de l'État, d'autres sources publiques, de pensions de retraite relatives à un emploi antérieur, d'intérêts d'obligations et de dépôts et de dividendes, d'autres placements, et d'autres sources. Le revenu de la famille est la somme des revenus touchés par tous les membres de la famille âgés de 15 ans et plus.

Le revenu moyen du chef de famille a été calculé selon le nombre de ceux qui ont déclaré un revenu, tandis que le revenu moyen des personnes hors famille et des familles a été calculé selon le nombre total de personnes hors famille et le nombre total de familles.

Les définitions de ces termes et des autres termes techniques, y compris les termes géographiques, employés dans le présent bulletin sont étudiées dans l'Introduction au volume II, partie 2 (n° 93-713 au catalogue).

Publications of the Census of Canada, 1971

This report is one of the Volume Series of publications of the 1971 Censuses of Population, Housing and Agriculture. Altogether, there are some 225 reports in this series prepared in such a way that by removal of their covers the contents can be combined to form the materials comprising the 6 volumes and 25 separate volume parts in the entire series. A hard-covered binder, suitably titled, is included in the composite price to purchasers of the complete set of reports for any given volume part.

Catalogue of reports

A catalogue is available which describes the individual reports in the Volume Series of 1971 Census publications as well as reports in other series (i.e., Advance Series, Census Tract Series, and Special Series). The catalogue also includes a price-list and an order form. A copy of this catalogue may be obtained from Publications Distribution, Statistics Canada, Ottawa K1A 0T6. For further information on census publications, address your inquiry to Information Division, Statistics Canada.

How to order reports

Orders for reports may be sent to Publications Distribution, Statistics Canada, Ottawa K1A 0T6, or to Publishing Division, Information Canada, Ottawa K1A 0S9. Enclose payment with your order in the form of a cheque or money order made payable to the Receiver General of Canada. If more convenient, census publications may be ordered from Information Canada bookstores in Halifax, Montreal, Ottawa, Toronto, Winnipeg, or Vancouver. For other details concerning deposit accounts, bulk orders, etc., contact Publications Distribution, Statistics Canada.

Other forms of publication

In addition to the tabulated results of the 1971 Census published in reports and bulletins, a large number of tables will be issued to users as copies of computer print-outs. These will also be available in microform. A variety of statistical tables may be purchased on computer "summary" tapes for further computer analysis by users. Details of the content, prices, and availability of census tabulations in these output media may be obtained from the User Inquiry Service, Census Field, Statistics Canada, Ottawa K1A 0T7.

Special tabulations

To the extent that confidentiality constraints permit, Statistics Canada will produce for users at cost, special tabulations not already included in the planned tabulation programme. Requests should be sent to the Census User Inquiry Service specifying clearly the precise classifications or cross-classifications and the geographic areas. The exact categories for each characteristic and a rough table layout should be included.

Maps and geographic files

Large-scale maps may be purchased to show the boundaries of enumeration areas (i.e., the territory covered by each Census Representative in taking the census), as well as small-scale maps of census divisions and other statistical areas. Supporting documentation relating to the census geographic files (i.e., place names, codes, etc.) are available in tabular form identifying the component enumeration areas of administrative and statistical units (e.g., towns, villages, municipalities, tracts). Further details, including costs to users, may be obtained from the User Inquiry Service of the Census Field of Statistics Canada.

Catalogue

On peut se procurer un catalogue qui décrit chaque bulletin de la série des volumes du recensement de 1971, ainsi que les bulletins des autres séries (série préliminaire, série des secteurs de recensement et série spéciale). Le catalogue contient également une liste de prix et une formule de commande. On peut obtenir un exemplaire de ce catalogue en s'adressant à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6. Pour tout renseignement complémentaire sur les publications du recensement, s'adresser à la Division de l'information de Statistique Canada.

Commandes de bulletins

Les commandes de bulletins peuvent être envoyées à la Distribution des publications, Statistique Canada, Ottawa K1A 0T6, ou à la Division de l'édition, Information Canada, Ottawa K1A 0S9. Autres formes de publication

En plus des diverses publications contenant les résultats du recensement de 1971, de nombreux tableaux seront mis à la disposition des utilisateurs sous forme d'états mécanographiés. Ces tableaux seront également disponibles en microcopie. Les utilisateurs désireux de faire des analyses par des moyens mécanographiques pourront également se procurer un large éventail de tableaux statistiques sur bandes "sommaries". Pour tout renseignement sur le contenu, le prix et la disponibilité des résultats du recensement sur ces supports, s'adresser au Service-utilisateurs, Secteur du recensement, Statistique Canada, Ottawa K1A 0T7.

Totalisations spéciales

Dans la mesure où le respect du secret des données le permettra, Statistique Canada établira, à l'intention des utilisateurs qui en acquitteront les frais, des totalisations spéciales qui ne font pas encore partie du programme d'exploitation prévu. Il faut envoyer les demandes au Service-utilisateurs des données du recensement en précisant bien les classements ou recoupements et les régions géographiques. Il faut inclure les catégories exactes pour chaque caractéristique et une ébauche de la disposition des tableaux.

Cartes et fichiers géographiques

Les utilisateurs pourront se procurer des cartes à grande échelle indiquant les limites des secteurs de dénombrement (c.-à-d. des territoires recensés par chaque représentant du recensement) ainsi que des cartes à petite échelle des divisions de recensement et des autres secteurs statistiques. Les documents constituant les fichiers géographiques (noms, codes, etc. géographiques) sont disponibles sous forme de tableaux présentant les différents secteurs de dénombrement qui constituent les unités administratives et statistiques (par ex., villes, villages, municipalités et secteurs de recensement). Pour plus de détails et pour une indication des frais, s'adresser au Service-utilisateurs du Secteur du recensement de Statistique Canada.
